Who we are

A STORY OF TRADITION, PASSION AND INNOVATION

Traditional creative spirit seeks new forms to express contemporary motifs

Bruno Fusato Signoretti created our company from the past but with a look to the future, a philosophy of life and a boundless love for the deep traditions of the Serenissima Republic, a culture born among the channels and emerging from the fog of the past as a dream.

Three women in command who, with resourcefulness, determination and foresight, have the ability to look at their past without nostalgia and yet have the desire to recover old values and renew a promise while imagining new future scenarios.

In 2014, when Bruno Fusato passed away, the business has been handed down to his daughters: Elisabetta, Barbara and Maria Luisa. They are beautiful, cheerful, enthusiastic and firmly anchored to the core objectives of the company, continuing to cherish the values their father handed down, with dedication and passion.

Today the Brand B.F. SIGNORETTI cooperates with important interior designers and suppliers in prestigious international projects. The strong point is the development of Custom Made projects.

Looking ahead, Alex, Luna and Lorenzo are Bruno Fusato's grandchildren, who will trace the future of the Signoretti glassworks.

Our Showroom

A PLACE OF LUXURY ART AND EXCLUSIVITY

In our Showroom are displayed glasses and goblets created with zanfirico cane and filigree, reproducing the iconographic forms of the Venetian tradition and Belle Epoque that are still on display in the Murano Glass Museum. Our spaces are enriched by many modern works created using countless processing techniques and vibrant colored glasses.

This space is a real example of the tradition that B.F. Signoretti Glass Factory is keeping alive daily through the efforts of the team in order to convey the precious traditional knowledge that Murano has to offer to the entire world. The exhibition of the majestic Rezzonico and Venetian style chandeliers is spectacular, and is made exclusively by B. F. SIGNORETTI team.

On permanent display are some of the greatest masterpieces of glass art in our rooms, made by great Venetian Masters such as Ermanno Nason, Walter Furlan, Adriano Dalla Valentina, Pino Signoretto, Dino Rosin, just to name a few.

The furnace

WHERE THE ELUSIVE MATTER
IS SHAPED BY SKILLED HANDS

Where the magic happens

Fusato Signoretti Family opens the doors of its furnace to offer the guests a unique experience. Attending the glass processing, admiring the Masters' skill closely and sharing the emotion the Furnace arouses, means discovering the most authentic soul of Murano.

Watching a Master shaping the substance in the fire is one of the most fascinating spectacles one can witness. The artworks seem to be born out of nowhere as if by a magic made of fire and skillful gestures.

Alex Signoretti

Grandson of Bruno Fusato Signoretti, Alex Signoretti was born in 1996 and, after completing his studies, he decided to walk the difficult path of apprenticeship to become a master glassmaker and be able to work in the family furnace in Murano.

Today Alex and his new team of masters collaborate in our furnace in the design and construction of an innovative product line called: TEAM BF SIGNORETTI.
